

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

NicheJungle Japanese Orphan Companies SDG Fund (the "Fund") A sub-fund of NicheJungle ICAV (the "ICAV").

Class I EUR Accumulating Shares, ISIN: IE000MFX2916

The Fund is managed by Carne Global Fund Managers (Ireland) Limited (the "Manager")

Objectives and Investment Policy

The investment objective of the Fund is to seek to achieve capital growth over the medium to long term.

The Fund is actively managed and not with reference to a Benchmark. The Fund seeks to achieve its investment objective by investing in equity securities of companies domiciled in Japan ("Japanese Issuers") and listed or traded on a regulated market as set out in Appendix I of the prospectus. The Fund will invest from 65% - 100% of its net assets in equity securities of Japanese Issuers. The Fund will invest from 58.5% to 100% of its net assets in Japanese Orphan Companies. The Fund may invest up to 10% of its net assets in Equity Securities of Japanese Issuers that are not Orphan Companies. No equity security will represent more than 4% of the Net Asset Value ("NAV") of the Fund at the time of purchase.

The Fund may invest up to 35% of its net assets in fixed income securities. Fixed income securities will usually be of investment grade but the Fund may invest up to 5% of its net assets in unrated fixed income securities. The Investment Manager may decide at any given time to allocate part of the capital to cash and/or fixed income securities if they deem this to be an opportunity to enhance the risk/reward profile of the Fund. In the long run, this flexibility may significantly enhance the returns of the Fund. The Fund may invest no more than 2.5% of its net assets in the fixed income securities of any one corporate issuer and its total exposure to fixed income securities issued by governments, supranational entities or international agencies may not exceed 5% of its net assets. Up to 10% of the Fund's net assets may be invested in high-yield fixed income securities, including high yield corporate bonds rated at BB- or above by established credit rating agencies at the time of purchase.

The Fund may invest up to 10% of its net assets in fixed income securities issued by governments and/or corporate entities in emerging markets. No more

than 3% of the Fund's net assets will be invested in fixed income securities issued in any one emerging market.

Orphan companies means companies at the time of purchase of securities issued by them, fulfill the following criteria, i) the company must have been listed on a regular market for at least ten years, ii) a non-financial company must be free of financial debt, net of cash, financial investments and the difference between trade receivables and payables, iii) the company must have a ratio price to tangible book value between 1.2 times, iv) the company must have a minimum free float of at least 2 billion Yen and, v) the company must be covered by no more than 2 sell-side fundamental analysts.

The Fund may invest up to 10% of the Fund's net assets in UCITS and/or open-ended AIFs.

The Fund may invest in derivative instruments only for currency hedging purposes. The Investment Manager may use currency forwards to hedge the currency exposure of the underlying securities of the Fund denominated in a currency other than the base currency.

The Fund's base currency is Euro.

For Accumulating Shares, income will be automatically reinvested in the Fund and reflected in the NAV per share.

Investors can buy and sell shares of the Fund on each business day. Business day means any day (except Saturday and Sunday) where the banks in Dublin, Ireland are open for business or such other days as may be determined by the Directors and notified to Shareholders in advance.

The Fund may be appropriate for retail and institutional investors with a medium to long term investment horizon and a high tolerance for volatility.

For more information about the investment policy and strategy of the Fund, please refer to the sections entitled "Investment Objective and Investment Policies" of the Fund's supplement.

Risk and Reward Profile

This indicator above is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time. The lowest category does not mean a risk free investment.

This Fund is in risk category 6 due to the range and frequency of price movements (i.e. the volatility) of the underlying investments referenced by the Fund which may not be a reliable indicator of the future risk profile of the share class.

The Fund offers no capital guarantee or protection.

The Fund may be subject to risks which are not included in the calculation of the risk-reward indicator. Key risk factors include:

Market Risk: The risk that the market will go down in value, with the possibility that such changes will be sharp and unpredictable.

Currency Risk: Some of the Fund's investments will be denominated in currencies other than the Fund's base currency (EUR) therefore investors may be affected by adverse movements of the denominated currency and the base currency.

Operational Risk (including safekeeping of assets): The Fund and its assets may experience material losses as a result of technology/system failures,

human error, policy breaches, and/or incorrect valuation of units. Social, political and economic developments and laws differ between regions.

Equities Risk: The Fund invests in shares of companies, and the value of these shares can be negatively affected by changes in the company, its industry or the economy in which it operates.

Credit Risk: The Fund may be adversely affected if the issuer of a debt instrument fails to meet its repayment obligations. The Fund may invest in convertible bonds which may be corporate or government issued of any investment grade. Corporate debt may be subject to credit rating downgrades which may result in the Fund experiencing losses. Sovereign debt is subject to the risk of the governmental entity being unable to meet principal and interest payments. By purchasing debt instruments, the Fund will assume this interest risk.

Small Capitalisation Companies Risk: As Japanese Orphan Companies are generally small capitalisation companies, investments in these companies, may involve greater risks such as markets and financial or managerial resources. Less frequently traded securities may be subject to more abrupt price movements than securities of larger capitalisation companies.

Derivatives Risk: The Fund may invest in FDIs for currency hedging purposes only. There is no guarantee that the Fund's use of derivatives for either purpose will be successful. Derivatives are subject to counterparty risk (including potential loss of instruments) and are highly sensitive to underlying price movements, interest rates and market volatility and therefore come with a greater risk.

For more information on risks, please see the section entitled "Risk Factors" in the Fund's supplement and prospectus of the ICAV.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing the Fund. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest:

Entry Charge	None
Exit Charge	None

This is the maximum amount that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Fund over a year:

Ongoing Charges	0.98%
-----------------	-------

Charges taken from the Fund under certain specific conditions:

Performance Fee	Class I EUR Accumulating Shares	20%
-----------------	---------------------------------	-----

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charges figure is based on expenses for the year ending December 2023. The Fund's annual report for each financial year will include detail on the exact charges made. The ongoing charge figure may vary from year to year and excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

The performance fee is equal to a percentage of the appreciation (realised and unrealised) of the NAV per share of the relevant class of shares during each calendar year in excess of a high water mark of the greater of (i) the initial offer price and (ii) the highest NAV per share of the relevant class.

In the year ending 31 December 2023, the performance fee charged was 3.54% of the net asset value of the class.

Please refer to the "Fees and Expenses" section of the ICAV's prospectus and supplement to the prospectus for further detail on charges and fees for the relevant share classes.

Past Performance

The Fund was established in 2022.

Past performance is not a guarantee of future performance. In general, past performance takes into account of all ongoing charges, but not any entry, exit or switching charge. Past performance shall be calculated in EUR. **The value of your investment may go down as well as up and you may not get back the amount you originally invested.**

Practical Information

Depositary Bank: CACEIS Bank, Ireland Branch.

Further Information: Further information about the ICAV, copies of the prospectus and the Fund supplement, latest annual, semi-annual reports and other practical information may be obtained free of charge from <https://www.nichejungle.com/> and at the registered office of the ICAV.
