You are about to purchase a product that is not simple and may be difficult to understand.

➤ What is this product?

Type: This product is a UCITS.

Term: No fixed term.

Objectives: The investment objective of the Fund is to seek to achieve capital growth over the medium to long term.

The Fund seeks to achieve this investment objective by investing in Equity Securities of companies domiciled in Japan ("Japanese Issuers"), and listed or traded on a Regulated Market as set out in Appendix I of the Prospectus. The Fund will invest from 65% to 100% of its net assets in Equity Securities of Japanese Issuers. The Fund will invest from 58.5% to 100% of its net assets in Japanese Orphan Companies. The Fund may invest up to 10% of its net assets in Equity Securities of Japanese Issuers that are not Orphan Companies. The term Orphan Companies is one that has been adopted by the Investment Manager comprising companies that have the characteristics described in the definition of "Orphan Company", on page 2 of this Supplement, and is not a specific asset class. The use of the term Orphan Companies denotes stocks that have been neglected or ignored by investors and analysts. The rationale for investment by the Fund in the transferable securities of such Orphan Companies is that value investors often exclusively seek out such securities, as their prices have not been inflated by investor demand and, accordingly, it is often the case that such stocks are trading at prices that the Investment Manager believes are below average in relation to measures such as earnings and book value. The Fund will be actively managed with no Equity Security representing more than 4% of the Net Asset Value of the Fund at the time of purchase.

The Fund's investments will be listed or traded on Regulated Markets, as set out in Appendix I of the Prospectus.

The Fund may invest up to 35% of its net assets in cash and/or Fixed Income Securities in order to enhance the risk/reward profile of the Fund. Such Fixed Income Securities will usually be of investment grade but the Fund may invest up to 5% of its net assets in unrated Fixed Income Securities. The Fund may invest no more than 2.5% of its net assets in the Fixed Income Securities of any one corporate issuer and its total exposure to Fixed Income Securities issued by governments, supranational entities or international agencies may not exceed 5% of its net assets. Up to 10% of the Fund's net assets may be invested in high-yield Fixed Income Securities, including high yield corporate bonds rated at BB- or above by established credit rating agencies at the time of purchase. The Fund will invest no more than 1.5% of its net assets in high yield Fixed Income Securities issued by any one corporate issuer and no more than 1.5% of its net assets in high yield unrated Fixed Income Securities.

The Fund may invest up to 10% of its net assets in Fixed Income Securities issued by governments and/or corporate entities in emerging markets. No more than 3% of the Fund's net assets will be invested in Fixed Income Securities issued in any one emerging market.

The Investment Manager may invest up to 10% of the Fund's net assets in UCITS and/or open-ended AIFs (including exchange traded funds) (together, "Underlying Funds") domiciled and regulated in Member States, the United Kingdom, the Channel Islands and the Isle of Man, in order to gain indirect exposure to Fixed Income Securities. The Fund will only invest in open-ended AIFs which are eligible for investment in accordance with the Central Bank Guidance on UCITS Acceptable Investments in Other Investment Funds.

Intended retail investor: The Fund is suitable for retail investors seeking a medium to long term investment with a high tolerance for volatility.

Depositary: The Fund's assets are held through its Depositary, which is CACEIS Bank, Ireland Branch.

Distribution type: The product is accumulating.

➤ What are the risks and what could I get in return?

Risk indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Example investment: EUR 10,000		1 year	5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	What you might get back after costs	EUR 2,319	EUR 3,152
	Average return each year	-76.81%	-20.62%
Unfavourable scenario¹	What you might get back after costs	EUR 7,667	EUR 6,289
	Average return each year	-23.33%	-8.86%
Moderate scenario²	What you might get back after costs	EUR 10,474	EUR 14,981
	Average return each year	4.74%	8.42%
Favourable scenario³	What you might get back after costs	EUR 12,414	EUR 17,789
	Average return each year	24.14%	12.21%

¹This type of scenario occurred for an investment from 01/03/2019-01/03/2023

²This type of scenario occurred for an investment from 01/05/2020-01/05/2023

³This type of scenario occurred for an investment from 01/05/2019-01/05/2022

➤ What happens if Carne Global Fund Managers (Ireland) Limited is unable to pay out?

The assets and liabilities of the Fund are segregated from those of the PRIIP Manufacturer. The assets of the Fund are held in safekeeping by the Depositary. In the event of the insolvency of the PRIIP Manufacturer, the Fund's assets in the safekeeping of the Depositary will not be affected. In the event of the insolvency of the Depositary, you may suffer financial loss. There is no compensation or guarantee scheme in place which may offset, all or any of, your loss.

➤ What are the costs?

Costs over time

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return)
- For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

Example Investment: EUR 10,000	If you cash in after 1 year	If you cash in after 5 years
Total costs	EUR 804	EUR 2,248
Annual cost impact(*)	8.04%	4.22%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.64% before costs and 8.42% after costs.

Composition of costs

The table shows the impact on return per year		If you exit after 1 year	
One-off costs upon entry or exit	Entry costs	Up to 3.00% of the amount you pay in when entering this investment.	Up to EUR 300
	Exit costs	Up to 2.00% of your investment before it is paid out to you.	Up to EUR 200
Ongoing costs taken each year	Management fees and other administrative or operating costs	2.96% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 296
	Transaction costs	0.08% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 8
Incidental costs taken under specific conditions	Performance fees and carried interest	0.00% The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years. For additional information please refer to the "Fees and Expenses" section of prospectus and supplement.	EUR 0

➤ How long should I hold it and can I take my money out early?

The recommended minimum holding period: 5 years.

This product is designed for medium to long-term investments and should be planned to be held for at least 5 years. You should be able to sell your shares without penalty through your bank, stockbroker or other similar advisers at any time during this period or hold the investment longer. You may be subject to dealing costs that your adviser charges for this service. Sales are possible on every working day, with proceeds settled in 3 business days. The price is available on our website at www.nichejungle.com.

➤ How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person advising on the product, complaints can be lodged via the following methods:

E-mail: complaints@carnegroup.com

Mail: 3rd Floor, 55 Charlemont Place, Dublin, D02 F985, Ireland.

➤ Other relevant information

Further Information: We are required to provide you with further documentation, such as the product's latest prospectus, annual and semi-annual reports. These documents and other product information are available online at www.nichejungle.com.

Past Performance and Performance Scenarios: For details of past performance, please see online at www.nichejungle.com. For previous performance scenarios, please see www.nichejungle.com.
